

FULL STACK DEVELOPER - PLOIEȘTI

Contec is an engineering consultancy company of Belgian origin, specialized in the automation of industrial production processes. Our activities include programming work (PLC, SCADA, MES/IT), Electrical & Instrumentation (E&I) Engineering, electrical power studies and process safety. Contec operates within a wide variety of sectors, including the (petro-) chemicals, pharmaceuticals and the food sector.

For our **Romanian office**, we are currently hiring a **Full Stack Developer**.

You will be part of our **MOM team** which mainly concentrates on software development for shopfloor applications, interfacing between different systems, reporting, label printing and database management.

Depending on the project, you will either work independently or as part of a team to meet the client's software requirements. You report to the project manager. The projects vary greatly, so it is important that you have a high interest in software development.

Our main activities are:

- The development, integration and setting up of production-related software systems (databases) for our clients.
- Setting up links between production systems and database systems to enable efficient reporting and analysis.
- The integration of peripheral apparatus using the available tools or self-written protocols.
- Assisting clients with the installed software modules.

WE ARE LOOKING FOR...

- You hold a degree of higher education focussing on **software development, ICT** or have equivalent experience.
- You are **communicative** and function well in a team context.
- You are **driven** and eager to learn.
- You can keep a cool head in stressful situations and seek out the best solution whilst maintaining a good relationship with the client.
- You have an **eye for detail** and work accurately.
- You are very interested in and/or have a strong knowledge of the following technologies:
 - » **Microsoft SQL servers**
 - » **Microsoft Reporting Services**
 - » **Windows application (.Net development)**
C# development
Entity framework
 - » **Web development**
ASP.Net MVC
Bootstrap
Javascript
 - » **Analysis:** UML
 - » **General:** git

WHAT WE OFFER...

- **Competitive salary** with **extra-legal benefits** like medical care for you and your family, pension plan paid by the employer, yearly bonuses,...
- Working on **interesting projects worldwide in an international team**, a mixture of young as well as experienced engineers
- Trainings abroad
- **Flexible working hours**
- Friendly workplace in the city center
- Noncorporate atmosphere and **regularly organised company events**
