

Huawei Enterprise Romania GSC focuses its goals on satisfying customer needs, reducing costs and ensuring smooth business operation.

Our Enterprise GSC offers 24/7 multi-channel access, multi-language support in 6 different languages (English, French, Spanish, Italian, Polish and German) and IT platforms used by our engineers to solve our customers' problems. Huawei Enterprise Romania GSC is made of several teams: Marketing & Channel Support Center, Customer Care Representatives, Spare Parts Center, Network Operation Center, Technical Assistance Center and Remote Delivery Center.

In Romania we have 2 offices, located in Bucharest and Timisoara, with over 150 HCNP (Huawei Certified Network Professional) and HCIE (Huawei Certified Internetwork Expert) employees.

We are looking for a motivated candidate to join us as a:

Transmissions Engineer

Location: Bucharest

Summary:

Huawei Enterprise Business Group is glad to welcome you, a young capable engineer, to join our team of Customer Support Engineers for Enterprise Transmission product line. You have the chance to join a team of enthusiastic people who want to build a strong connected, well instructed and customer focused team that will handle customer service requests from all Europe for our Enterprise Transmission products - OptiX OSN Series.

The team provides second/third level technical support on a worldwide basis 24X7X365 via phone, email, web and remote access to Huawei customers, partners, account teams, and other TAC engineers via independently troubleshoot & debug product problems.

The Technical Assistance Center team is made up of highly-responsive and self-driven technology enthusiasts who love what they do: Enabling Customers by enabling Huawei Technologies!

Responsibilities:

- Handling customer service requests from all Europe for our Enterprise Transmission products - OptiX OSN Series;
- Applies analytical skills and technical knowledge to solve product and network issues of moderate to high complexity;
- Take first corrective actions to isolate and neutralize reported incidents and if necessary escalate to next technical level support;
- Provide detailed information on how to set up, configure Transmission products and basic troubleshooting based on available technical documentation database.
- Recommend proper firmware and patch in accordance with latest bulletin. Identify hardware faults and provided replacement based on root cause found.
- Work together with next technical level support and provide an effective solution within contractual SLA time;
- Use trouble ticketing system for tracking customer interactions, perform procedural actions on the ticket and fault analysis;
- Identify customers concerns and critical problems based on customer interaction, work together with next technical level support to solve identified problem in shortest time, in order to restore affected services.

Requirements:

Soft skills:

- Good communication skills (phone and email);
- Good verbal and written English skills;
- Customer oriented;

Technical skills:

- Knowledge of SDH, WDM indicators, clock, equipment interoperability;
- Knowledge of optical fiber transmission media;
- Basic configuration knowledge of SDH/WDM;
- Good Troubleshooting skills (able to analyze debug outputs and packet captures);

- Familiar with TCP/IP & OSI protocol stack;
- Basic Knowledge of routing protocols (OSPF, BGP, IS-IS) and MPLS VPN;
- Basic Knowledge of switching technologies and protocols (Vlans, STP);
- Basic Knowledge of NMS operations (alarm monitoring, device monitoring, software upgrade);
- Basic Knowledge of Microwave transmission will be considered a plus;
- Nice to have basic Knowledge of Fixed Access Network (FTTx).
- Nice to have CCNA trainings;
- More than 1 year work experience in system integration or telecommunication will have priority;
- Spanish language skills would be considered an advantage.

Offer:

- Motivational salary package and annual performance bonus;
- Gym discounts;
- Private Medical Insurance discounts;
- Paid 4 hours leave per month;
- Flexible work schedule;
- Opportunity to work on shifts;
- Weekly fruit day;
- Opportunity to get certifications (HCNA, HCNP, HCIE) on Huawei products;
- Life time learning environment and tools;
- Hands-on experience and lab testing;
- Great amount of Product Documentation;
- Access to a unified Knowledge Base where you can find technical cases encountered by all our engineers around the world;
- Opportunity to contribute to the Knowledge base and be part of a growing Huawei Engineers community;

- Opportunity to go abroad on business trips to customer site and offer onsite support (after gaining some relevant working experience with Huawei products).
