

Business Analyst – McKinsey Digital

What you'll do

Get to know one of your future colleagues

<https://www.mckinsey.com/careers/meet-our-people/careers-blog/martin-d>

You'll work in teams of typically 3-5 consultants, playing an active role in all aspects of the client engagement. This includes gathering and analyzing information, formulating and testing hypotheses, and developing and communicating recommendations. You'll also have the opportunity to present results to client management and implement recommendations in collaboration with client team members.

You'll receive exceptional training as well as frequent coaching and mentoring from colleagues on their teams. This support includes a Partner from your local office or practice assigned to you to help guide your career as well as several weeks of formal training in your first two years as a BA. Additionally, you'll receive guidance and support from your local office in the selection of client projects, helping you to develop your skills and build your network.

Who you'll work with

You will be based in Bucharest, and will be part of McKinsey Digital.

As part of this group, you'll join a global team working on everything from IT modernization and strategy to agile, cloud, cybersecurity, and digital transformation. You'll typically work on projects across all industries and functions and will be fully integrated with the rest of our global firm.

You'll also work with colleagues from across McKinsey & Company to help our clients deliver breakthrough products, experiences, and businesses, both on technology and non-technology topics.

Our office culture is casual and social, with an emphasis on education and innovation. We have the freedom to try new ideas, experiment and are expected to be constantly learning and growing. There is also a strong emphasis on mentoring others in the group, enabling them to grow and learn.

Qualifications

- Degree in computer science, telecommunications, or other engineering/technical field, Master's degree
- Demonstrated aptitude for analytics and digital
- Exceptional analytical and quantitative problem-solving skills
- Proven record of leadership in a work setting and/or through extracurricular activities
- Ability to work collaboratively in a team environment, with people at all levels in an organization
- Ability to communicate complex ideas effectively in English and Romanian
- Willingness to travel

Application
